DATES: CHOOSE ONE
March 12 [Register Here](#)
March 13 [Register Here](#)

TIME: 8:30 am – 1 pm

LOCATION: Trus Joist Parallam Plant
1272 Derwent Way, Delta, BC V3M 5R1

*Professional development credits will be issued
Lunch will be provided*

The Lower Mainland's premier suppliers of
engineered wood systems and connectors have
come together to provide a joint workshop that
encompasses both products lines.

Steve McManus, P.E.
Trus Joist Product
Support Engineer,
Canada

Andy Teasell, P.E.
Trus Joist Regional
Structural Frame
Manager, Canada

Fred Tai, P.Eng.
Simpson Engineering
Manager, Canada

Timothy Wagner, P.Eng.
Simpson Branch
Engineer,
Western Canada

Trus Joist and Simpson Strong Tie Canada cordially invite you to attend our joint workshop at the Parallam® plant in Vancouver. Recent changes to the code will have a significant impact on the seismic design of wood frame buildings. Our workshop is designed to provide the latest information on EWP and connector/hardware design. At the end of the workshop we will be hosting a plant tour and lab demonstrations of both Trus Joist systems and Simpson Strong-Tie connectors.

Topics included:

- Review of Trus Joist software solutions
- Understanding and reviewing placement plans
- Repair of engineered wood systems
- Hanger design using Trus Joist Software and Simpson
 - Hanger call out logic of the Simpson database
 - Hanger design and analysis as per CSA 086-14 Clause 16.5
 - Hanger Testing DEMO
- Lateral Design detailing

Workshop is suitable for all levels.
